

Printed Circuit Board Fabrication QTA

What Sets i3 Apart?

- PCB design services
- PCB DFM services
- Volume manufacturing capabilities
- PCB assembly capability
- Variety of laminate materials on hand
- Strong team of scientists, engineers and innovators
- A company at the forefront of continual technology advancement
- Over 140 patents and trade process knowledge, with an additional 20 in process, within our IP portfolio
- QTA offerings starting from 3 days (technology dependent)

i3 QTA Operations

i3 PCB Technology

- Over 70 layers
- Blind & buried vias
- Lamination capability
- Embedded components
- Panel sizes 24 X 36
- PTH fill capable
- All finishes (immersion silver, gold, HASL, OSP, ENIPIG)
- Hybrid material constructions
